Private Treaty Bull Sale

Founded in 2009, Chandler Cattle Company has been developing well-designed, functional Angus cattle with proven performance genetics. We focus on calving ease that bends the growth curve and will also offer exceptional performance, maternal strength and carcass quality. Our bulls sire more body depth, muscle and real world fleshing ability than most calving ease sires. Daughters have excellent udder structure, longevity and fleshing ability. Our calves are wide based, square and correct with added thickness. Chandler Cattle Company carries some of the best genetics that the Angus breed has to offer.
